CoreMax Consulting, Inc.

CoreMax Consulting can help you select, securely implement, and manage off-the-shelf IT solutions and develop actionable analytics to empower your constituents beyond their wildest dreams.

With true expertise being squeezed out of the crowded consulting marketplace, our seasoned experts are in demand to provide a depth and breadth of knowledge that was traditionally only available from large consulting firms. CoreMax Consulting can now provide this expertise to service our clients in very unique ways, and with the focus and economy of a smaller firm, where you are our main client.

Providing Implementations for:

Government Organizations:

- Content Management
- Constituent Relationship Management
- Interoperability
- Integrated Case Management
- Electronic Medical Records
- Service Portals
- Electronic Permitting

Associations/Non-Profits:

- Content Management
- Member Relationship Management
- Self Service Portals

Education Organizations:

- Content Management
- Student Relationship Management
- Learning Management
- Self Service Portals

Private Industry:

- Customer Relationship Management
- Training Management
- Service Management
- Service Portals
